

CLOUD ANALYTICS CITY TOUR

[@SnowflakeDB](https://twitter.com/SnowflakeDB) [#CloudAnalytics17](https://twitter.com/CloudAnalytics17)

A Closer Look at Snowflake

Kevin Bair, Sales Engineer

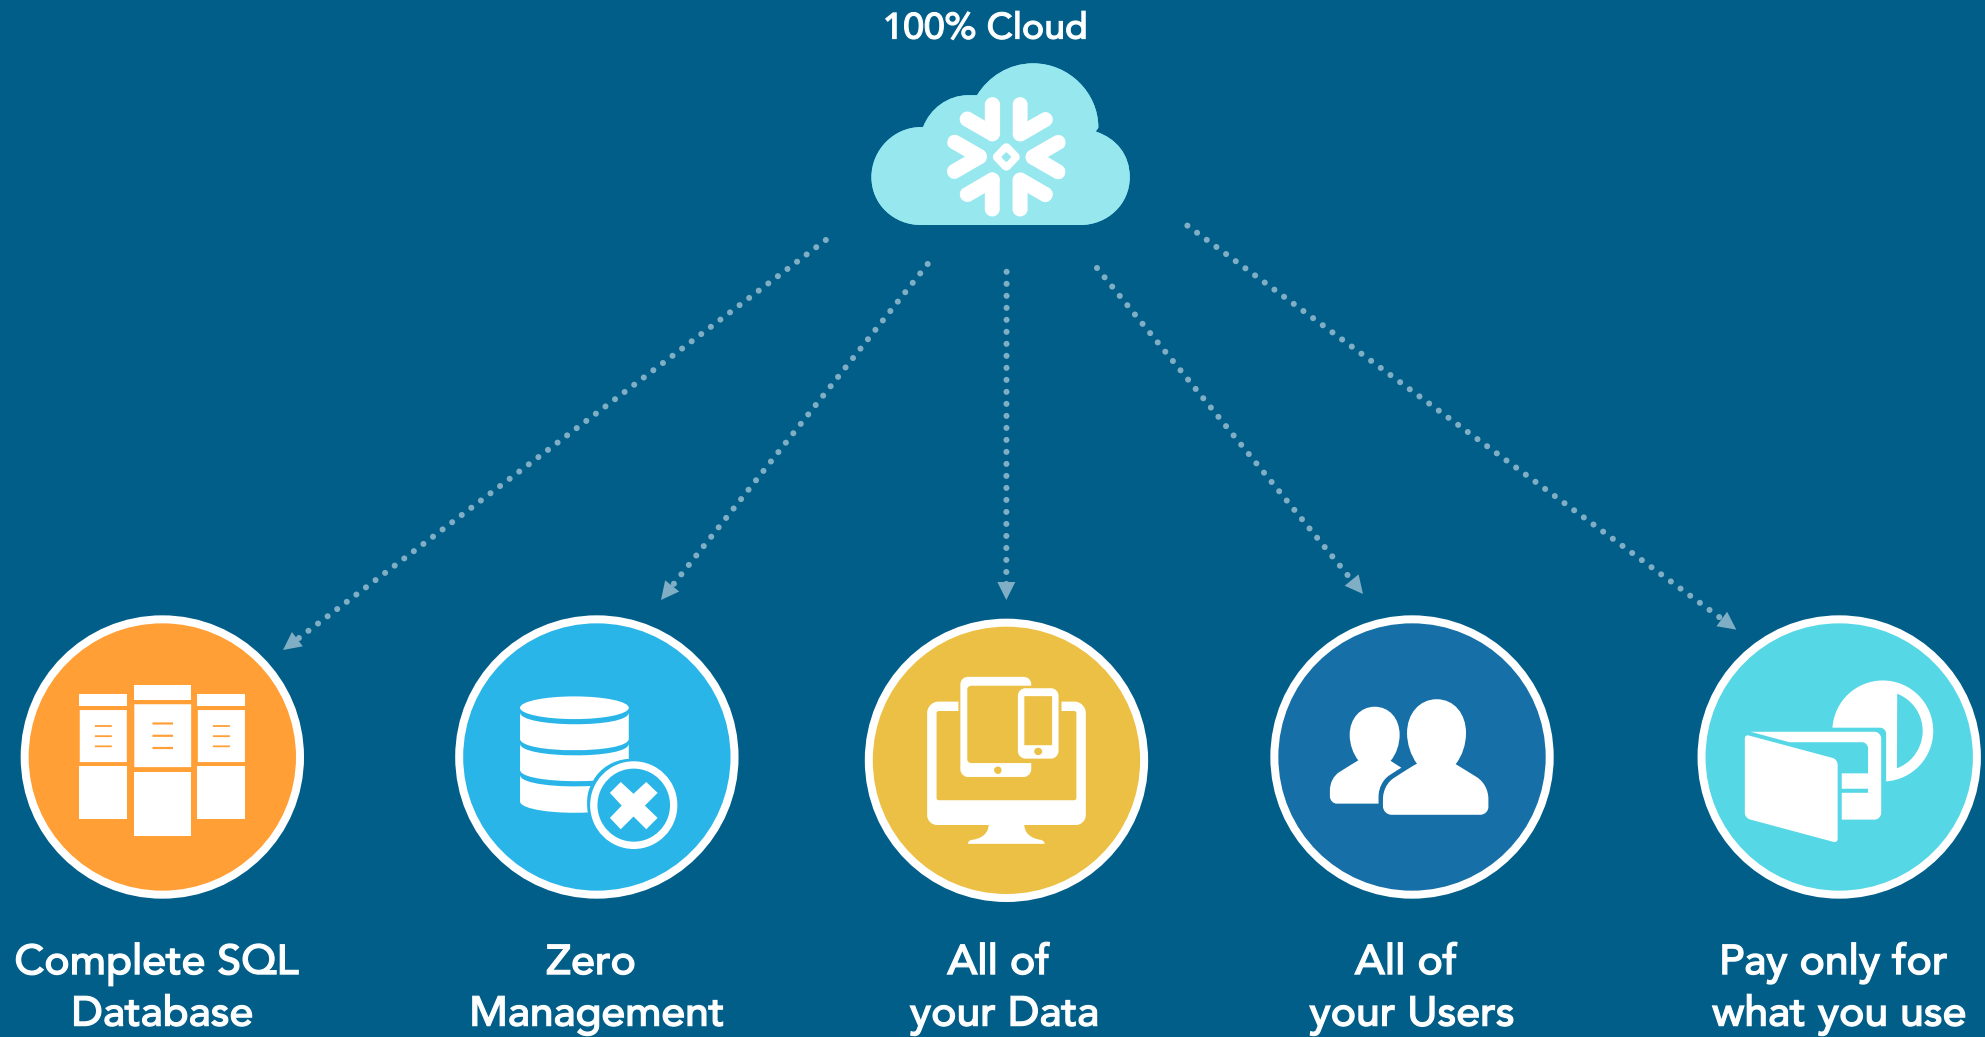

Snowflake Computing

Agenda

- Architectural Overview
- Live Demo

Data warehouse built for the cloud

Cloud-based architecture for big data analytics

Data Warehousing Cloud Service

Data storage is separate from compute

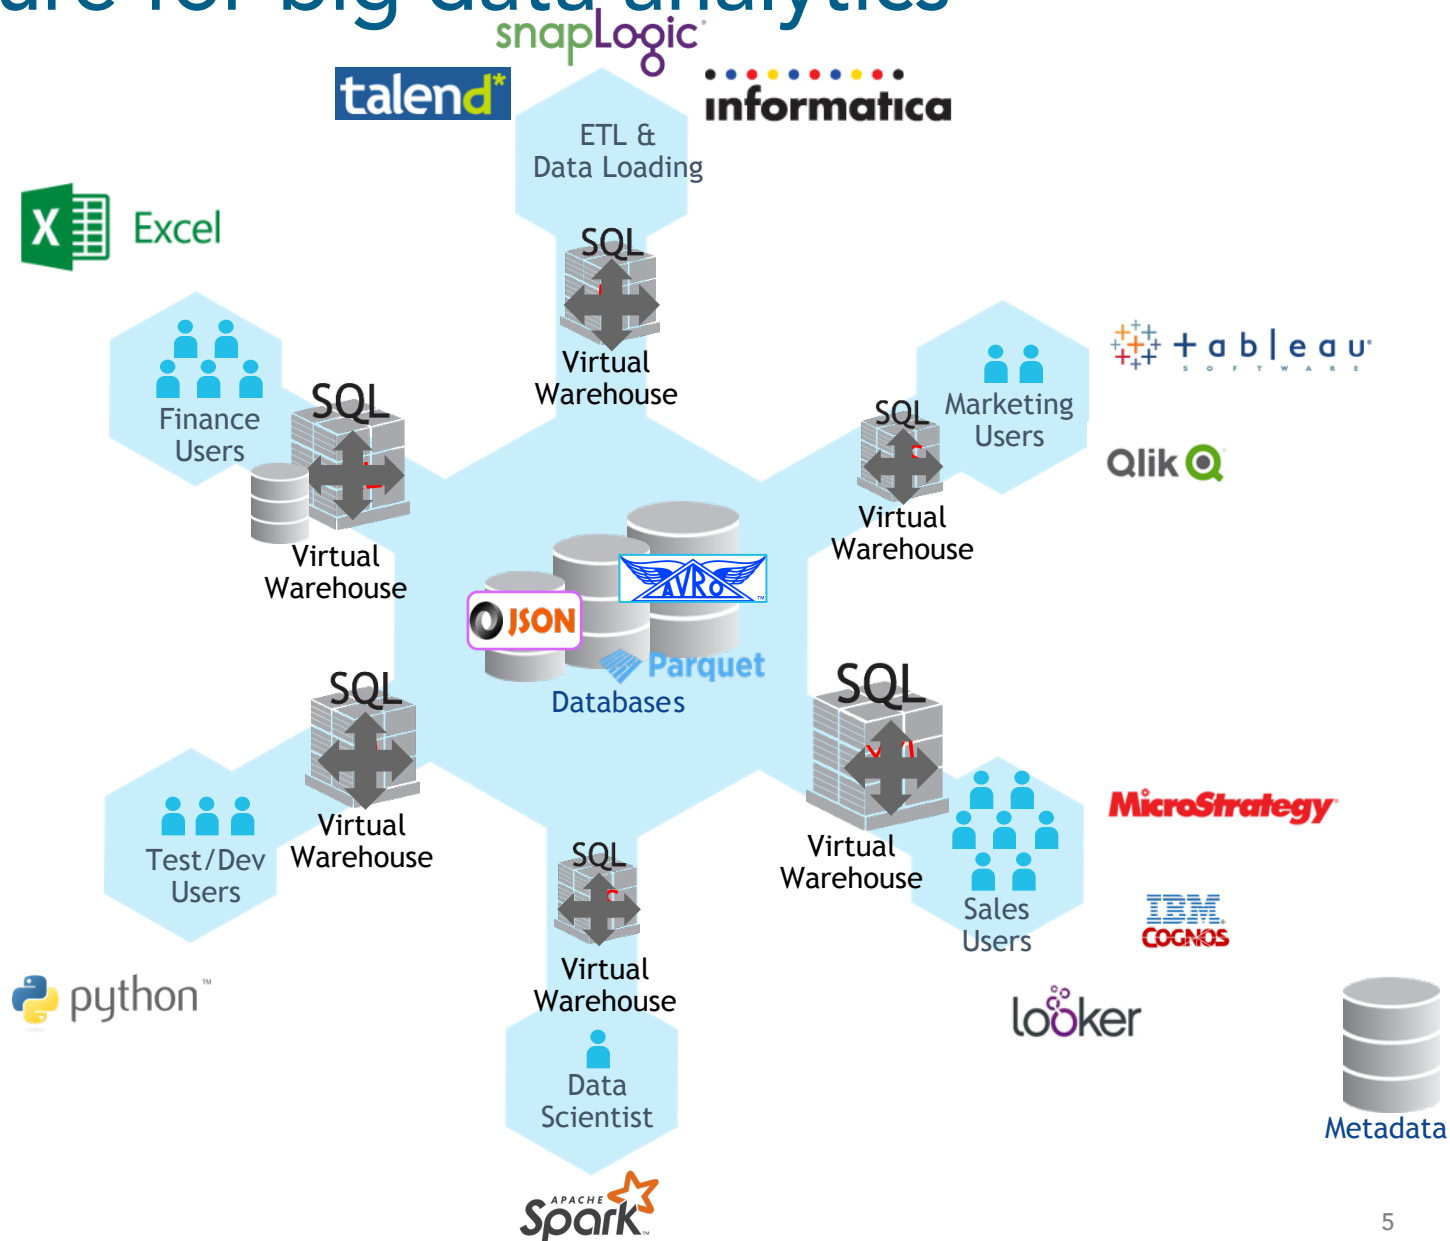

One Virtual Warehouse, multiple Databases

One Database, multiple Virtual Warehouses

Virtual Warehouses scale independently

Multi-Cluster warehouses support high concurrency

Workloads don't compete with each other
