

4-DAY FUNDAMENTALS TRAINING SOW

This Statement of Work ("SOW") is made and entered into as of the date the ordering document that references this SOW (the "Order Form") becomes binding (the "SOW Effective Date") by and between the customer noted on the Order Form ("Customer") and the Snowflake entity noted on the Order Form ("Snowflake") and describes the training services to be performed by Snowflake for Customer as further described in this SOW ("Technical Services").

- 1. Scope of Technical Services.** During the Term, Snowflake shall provide the Technical Services described below for Customer. Further descriptions regarding such Technical Services are included in Appendix A which is attached hereto and incorporated herein by this reference.
- 2. Scheduling and Term.** Unless otherwise agreed to by the parties herein, all Technical Services must be scheduled and delivered within one year from the Effective Date of this SOW ("Term").

Cancellation and Rescheduling Policy. Customer may reschedule or cancel a previously scheduled course without penalty thirty (30) or more days in advance of the scheduled start date. For a private course cancelled more than 15 days in advance, but fewer than 30 days in advance the reschedule or cancellation fee is 50% of the course price for such cancelled course. For public courses cancelled more than 15 days in advance, but fewer than 30 days in advance the cancellation fee is 50% of the course price for such cancelled course. For any public course, the customer may opt for a one-time reschedule option if requested more than 15 days in advance. For any training that is cancelled or rescheduled fifteen (15) or fewer days in advance, the cancellation fee will be the full course price.

Snowflake reviews public course enrollment 2-weeks prior to the start date. In the event that there is not sufficient enrollment to run the event as required, Snowflake will notify participants by email. Snowflake is not responsible for non-refundable travel or other expenses incurred by the participant.

3. Pricing and Payment Terms.

The Technical Services described in this SOW will be provided on a fixed price basis (in USD) pursuant to the fees set forth on the Order Form OR SOW referencing these terms. Customer shall not be due any credit or refund for any Technical Services not consumed during the Term. Any requirement(s), deviations from the scope of work not included herein will be considered outside of the scope and must be procured separately through a formal written amendment or change order to this SOW ("Change Order") that may result in additional cost or modified terms.

Late Payments: Should any invoice remain unpaid for more than thirty (30) days, then: (i) the overdue balance will be subject to interest at the rate of one and one-half percent (1.5%) per month (or the maximum allowed by applicable law), and (ii) Snowflake may, upon seven (7) days advance written notice to Customer, suspend Snowflake's performance of any Technical Services until Customer's payment obligations are made current. In addition, Customer will be responsible for any costs resulting from collection by Snowflake of any overdue balance, including, without limitation, reasonable attorneys' fees and court costs.

- 4. Expenses and Taxes.** Unless specifically set forth herein, the fees for Technical Services exclude taxes and any travel or related expenses. If applicable, Snowflake will work directly with Customer to plan reasonable travel, hotel and other expenses required in connection with the provision of any Technical Services. Any costs attributable to such travel, hotel and other expenses shall be invoiced by Snowflake and payable by Customer and are in addition to the fees set forth herein (unless the estimated fees for such travel, hotel and other expenses are invoiced expressly set forth above). In addition, Customer is responsible for paying all taxes associated with its purchases hereunder other than taxes based on income, property, or employees of Snowflake. If Snowflake has the legal obligation to pay or collect taxes for which Customer is responsible under this Section, Snowflake will invoice Customer and Customer will pay that amount unless Customer provides

Snowflake with a valid tax exemption certificate authorized by the appropriate taxing authority.

5. General Provisions. This SOW shall be governed by the Agreement as defined herein. The “Agreement” means, in order of precedence, the following agreement that governs the use of the Snowflake product or service (the “Service”) entered into by and between the parties: (i) the fully executed Master SaaS Agreement or similar agreement; (ii) the Snowflake Terms of Service located at: <https://www.snowflake.net/legal/>; or (iii) the Snowflake Self-Service On Demand Terms of Service located at: <https://www.snowflake.com/legal/>. If the Agreement does not expressly include provisions covering Snowflake’s provision of Technical Services, then for purposes of this SOW, the Agreement shall also incorporate by this reference the terms and conditions of the Snowflake Technical Services Addendum located at <https://www.snowflake.com/legal/> (“Addendum”). For clarity, Customer’s use of the Service is governed by the Agreement and not this SOW. Upon execution by both parties, this SOW shall be incorporated by reference into the Agreement. In the event of any inconsistency or conflict between the terms and conditions of this SOW and the Agreement, the terms and conditions of this SOW shall govern with respect to the subject matter of this SOW only. Unless otherwise defined herein, capitalized terms used in this SOW shall have the meaning defined in the Agreement or Addendum (as applicable). This SOW may not be modified or amended except in a written agreement signed by a duly authorized representative of each party.

6. Assumptions

- a. Notwithstanding anything in the Agreement to the contrary, Snowflake shall own all rights, title and interest in and to the Service and any Technical Services, deliverables, tools or related pre-existing or developed intellectual property provided or made available by Snowflake under this SOW.
- b. All electronic and hard copy versions of any deliverables are provided for Customer’s internal purposes only. Customer is prohibited from: (a) modifying the deliverables; and/or (b) reselling or sublicensing any deliverables. Customer may not utilize the deliverables to replicate or attempt to perform the Technical Services or to develop or attempt to develop any of the products described in such deliverables. Deliverables are not subject to any maintenance, support or updates.
- c. Customer may not record, film, stream or otherwise capture any performance or aspect of the Technical Services.
- d. For onsite delivery (if applicable), Customer is responsible for providing the appropriate facilities for the delivery of all Technical Services, including, but not limited to (as applicable), Internet connectivity, projector and workspace.
- e. Customer will not grant Snowflake access to any Customer Data hereunder and Snowflake will have no liability under this SOW related to such Customer Data.
- f. Snowflake reserves the right to subcontract the Technical Services described herein. Snowflake will be responsible for the performance of any subcontractors engaged in the delivery of the subcontracted Technical Services.
- g. Customer will assign a Project Manager for the duration of the project who will coordinate meeting schedules and availability of Customer personnel reasonably needed for the delivery of the Technical Services.
- h. Customer will be responsible for determining if, how and when it will implement any recommendations made by Snowflake
- i. The Technical Services delivered under this SOW will be delivered during regular business hours (8am to 5pm local time), Monday through Friday (holidays excluded).

APPENDIX A

Fundamentals: 4-Day

The 4-day Fundamentals course is being offered as either a private or public course. Private courses are limited to 15 participants.

Registration and information for the public course can be found here [Fundamentals 4-Day Public Course](#)

The full course agenda can be found at [Fundamentals 4 Day Agenda](#)
