

Chess for Children Voucher

[Chess in Schools and Communities](#) is a UK charity whose mission is to improve children's educational outcomes and social development by introducing them to the game of chess.

Chess promotes key intellectual skills such as problem solving, logical thinking, pattern recognition and concentration. Playing chess also fosters intellectual character. Its cerebral reputation boosts self-esteem and gives children 'grit' – the tenacity to cope with adversity. It does this by teaching children how to lose and how to win gracefully, to think ahead and foresee the consequences of their actions.

Chess in Schools and Communities is delighted **to offer you gold memberships of ChessKid free of charge** for your children, valid until July 20, 2020 (normal cost is £25). ChessKid is an online chess learning and playing zone designed for ages 5-11 that assumes no prior knowledge. Children who know how to play will be able to play others from around the world in a safe environment. There are 1000s of puzzles, instructional videos and tests.
